

ANAV BANSAL

Senior Full Stack Developer | Node.js • Angular • AWS • REST APIs • Express.js

Alwar, Rajasthan ♦ +91 7827855635 ♦ anavbansal06@gmail.com ♦ linkedin.com/in/anavbansal-51b191162

PROFESSIONAL SUMMARY

Impact-focused Senior Full-Stack Developer with 4.7+ years of hands-on experience architecting and shipping production-grade, end-to-end applications using **Node.js, AngularJS, Express.js, REST APIs, AWS Lambda, and DynamoDB/MySQL**. Specialized in serverless backend architectures, real-time event-driven systems, and deep CTI/Telephony integrations across enterprise platforms (ServiceNow, Salesforce, Freshdesk, MS Dynamics). Delivered 10+ full-stack products across contact center ecosystems for Avaya, Genesys, Webex, and Amazon Connect — from concept to marketplace deployment. Integrates AI-assisted development tools (**Claude, GitHub Copilot/Codex, Gemini, ChatGPT**) into daily workflows to ship faster, write cleaner code, and solve complex problems efficiently.

KEY ACHIEVEMENTS

- Received three 'Pat on the Back' awards for outstanding performance, surpassing key metrics across multiple high-impact projects.
- Nominated for Performance of the Year — recognized among top performers at Novelvox PVT Ltd.

WORK EXPERIENCE

Senior Software Developer | 04/2026 – Present

Novelvox PVT Ltd — Faridabad, Haryana

- Architected** enterprise-grade CTI/Telephony integrations for AVAYA Aura Contact Center (AACC) — owning the full stack from Node.js REST APIs and real-time CRM sync to a pixel-perfect AngularJS agent desktop UI used by live contact center agents.
- Leading** end-to-end delivery of AVAYA AES Telephony Integration — architecting a Node.js backend with WTI (Web Telephony Interface) APIs, building AngularJS dashboards for real-time agent visibility, and driving event-driven telephony workflows from the ground up.

Software Developer | 03/2024 – 04/2026

Novelvox PVT Ltd — Faridabad, Haryana

- Built** high-performance serverless applications on AWS Lambda (Node.js/Express.js) backed by DynamoDB and MySQL — powering real-time call metrics dashboards and analytics pipelines for contact center operations.
- Developed** production-ready RESTful APIs in Node.js/Express.js consumed by AngularJS agent desktop widgets — delivering real-time screen pop-ups, call controls, and live CRM data sync that directly improved agent response time.
- Engineered** a real-time multilingual chat translation feature for Webex Contact Center — Node.js Lambda backend paired with an AngularJS UI — breaking language barriers and expanding platform accessibility to non-English-speaking markets.
- Architected** a CDK Global & Zoom CTI integration using a full-stack Node.js/REST API stack — enabling real-time lead sync and contact management for automotive dealerships, directly accelerating sales workflows for enterprise clients.
- Published** and owned 3 enterprise full-stack applications on ServiceNow, Freshdesk, and Webex marketplaces — managing complete lifecycle from development and deployment to configuration, versioning, and direct customer support.
- Delivered** scalable workflow automations and CRM integrations across 6+ enterprise platforms (ServiceNow, Salesforce, Freshdesk, Zendesk, CDK Global, COX Automotive) — reducing manual agent effort and enabling seamless data flow between telephony and CRM systems.

Associate Software Developer | 10/2021 – 03/2024

Novelvox PVT Ltd — Faridabad, Haryana

- Developed** an MS Teams Calling Bot using Node.js and MS Teams APIs — bringing full CTI functionality inside the Teams ecosystem and enabling agents to handle calls without ever leaving their collaboration tool.
- Built** responsive AngularJS agent desktop components with real-time state sync — integrating MS Dynamics Live Chat and Telephony via REST APIs and PowerFX to give agents a unified, single-pane-of-glass experience.
- Implemented** end-to-end telephony integrations across Genesys, Avaya, and Amazon Connect — building a Node.js REST API middleware layer that unified CRM backends with telephony events and measurably streamlined contact center operations.

- **Leveraged** ServiceNow REST APIs to build new CTI features — engineered a Node.js middleware layer that bridged telephony events directly into CRM workflows, cutting agent context-switching and boosting operational efficiency.

TECHNICAL SKILLS

Frontend	AngularJS, ReactJS, HTML5, CSS3, JavaScript (ES6+)
Backend	Node.js, Express.js, REST APIs, JSON, WebSockets
Cloud & Serverless	AWS Lambda, Amazon Connect, DynamoDB, S3
Databases	MySQL, DynamoDB, JSON-based data stores
Telephony & CTI	Avaya (AACC, AES, IPO), Genesys, Webex, Zoom, Amazon Connect
CRM & Integrations	ServiceNow, Salesforce, Freshdesk, Zendesk, MS Dynamics, CDK Global
Tools & Practices	Git, Postman, REST API Design, Agile, Marketplace Deployment, Chatbot Development, AI-Assisted Development (Claude, GitHub Copilot/Codex, Gemini, ChatGPT)

EDUCATION

B.Tech in Computer Science | Graduated: 09/2021
Rajasthan Technical University — Kota, India

LANGUAGES

Hindi (Native) • **English** (Proficient)
