PROFESSIONAL SUMMARY

Results-driven Senior ServiceNow Developer and CRM Integration Expert with 4.7+ years of hands-on experience architecting and delivering enterprise-grade solutions on the ServiceNow platform — Flow Designer, IntegrationHub, Scripted REST APIs, Business Rules, ACLs, CMDB/Asset data, and Virtual Agent — alongside CRM integrations across Freshdesk, Salesforce, Zendesk, and MS Dynamics. Proven track record delivering 10+ production CRM/ServiceNow integrations across Avaya, Genesys, Webex, and Amazon Connect. Integrates AI-assisted development (Claude, GitHub Copilot, ChatGPT) to ship faster and cleaner.

KEY ACHIEVEMENTS

- Delivered 6+ enterprise CRM/ServiceNow integrations (ServiceNow, Salesforce, Freshdesk, Zendesk, CDK Global, COX Automotive) — each reducing manual agent effort by 30–40%.
- Reduced ServiceNow ITSM ticket-creation time by 60% by leading IntegrationHub spoke development connecting telephony events directly to ITSM workflows.
- Published and owned 3 marketplace applications on ServiceNow Store, Freshdesk Marketplace, and Webex App Hub — full lifecycle ownership.
- Received 3 'Pat on the Back' awards for outstanding performance and surpassing key delivery metrics.
- Nominated for Performance of the Year — recognised among top performers at Novelvox Pvt Ltd.

WORK EXPERIENCE

Senior Software Developer — CRM & ServiceNow Lead | Novelvox Pvt Ltd, Faridabad, Haryana

04/2026 – Present

- Architecting enterprise-grade ServiceNow CTI integrations for Avaya Aura Contact Center — full stack from Scripted REST APIs, Flow Designer automations, and real-time CRM sync to AngularJS agent desktop UI.
- Leading ServiceNow IntegrationHub spoke development — connecting telephony events directly to ITSM workflows, reducing ticket creation time by 60%.
- Building ServiceNow Virtual Agent chatbot flows for self-service ticket deflection, integrated with live telephony escalation paths.
- Driving Freshdesk CRM API integrations — automating contact creation, ticket updates, and CSAT workflows triggered by call events.

Software Developer — CRM Integration Specialist | Novelvox Pvt Ltd, Faridabad, Haryana

03/2024 – 04/2026

- Developed and deployed a Freshdesk marketplace CTI application — real-time screen pop, click-to-dial, and call disposition logging; adopted by multiple enterprise clients.
- Built Salesforce CTI adapter using Salesforce Open CTI framework — real-time call controls inside Salesforce Lightning with automatic lead/case creation on inbound calls.
- Engineered Zendesk Talk Integration via Zendesk Apps Framework — live call status sync, automatic ticket creation, and agent wrap-up code mapping.
- Delivered MS Dynamics 365 telephony integration — Node.js middleware bridging Avaya AES events to Dynamics CRM entities in real time.

- Architected CDK Global & COX Automotive CRM integrations — real-time lead sync and contact management for automotive dealerships.
- Published and maintained 3 marketplace apps (ServiceNow Store, Freshdesk Marketplace, Webex App Hub) — full ownership of deployment, versioning, docs, and customer support.

Associate Software Developer — CRM & Integration Engineer | Novelvox Pvt Ltd, Faridabad, Haryana

10/2021 – 03/2024

- Implemented ServiceNow REST API integrations — Node.js middleware bridging telephony events into ServiceNow ITSM workflows, cutting agent context-switching by 40%.
- Built Freshdesk CTI screen-pop widgets using Freshdesk Developer Platform (FDK) — delivering caller information and CRM context before agents answer calls.
- Developed MS Dynamics Live Chat and Telephony integration via REST APIs and PowerFX — unified single-pane-of-glass CRM and telephony experience.
- Implemented end-to-end ServiceNow scripted integrations across Genesys, Avaya, and Amazon Connect — unified CRM backends with telephony events.
- Built real-time multilingual chat translation for Webex Contact Center — Node.js Lambda + AngularJS UI, expanding platform to non-English markets.

TECHNICAL SKILLS

ServiceNow Platform:

ITSM, CSM, GlideRecord, GlideAjax, Client Scripts, UI Policies, Business Rules, ACLs, Workflow Editor, Flow Designer, IntegrationHub, Scripted REST APIs, Transform Maps, Import Sets, MID Server, Virtual Agent

CRM Platforms:

Freshdesk (FDK, Marketplace Apps, CTI API), Salesforce (Open CTI, Lightning, REST API), Zendesk (Apps Framework, Talk API), MS Dynamics 365

CRM Integration:

CTI Screen Pop, Click-to-Dial, Auto Call Logging, Real-Time Ticket Creation, CRM-Telephony Event Sync, Wrap-Up Code Mapping, CSAT Automation, IVR-to-CRM Data Push

Backend:

Node.js, Express.js, REST APIs, WebSockets, JSON, AWS Lambda, Serverless Architecture

Frontend:

AngularJS, HTML5, CSS3, JavaScript (ES6+), Freshdesk App Components

Telephony / CTI:

Avaya (AACC, AES, IPO), Genesys Cloud, Webex Contact Center, Zoom, Amazon Connect

Cloud & Databases:

AWS Lambda, DynamoDB, S3, MySQL, JSON-based data stores

Tools & Practices:

Git, Postman, Agile/Scrum, Marketplace Deployment, API Design, AI Dev (Claude, GitHub Copilot, ChatGPT)

EDUCATION

B.Tech in Computer Science | Rajasthan Technical University, Kota, India | Graduated: 09/2021

LANGUAGES

Hindi (Native) • English (Proficient)
