WORK EXPERIENCE

Senior Software Developer | 04/2026 – Present

Novelvox PVT Ltd — Faridabad, Haryana

- Architected** enterprise-grade CTI/Telephony integrations for AVAYA Aura Contact Center (AACC) using AVAYA APIs, enabling seamless agent communication, call controls, screen popups, and CRM synchronization.
- Leading** development of an AVAYA AES Telephony Integration using WTI (Web Telephony Interface) APIs, delivering call event handling, agent state management, and real-time telephony workflows.

Software Developer | 03/2024 – 04/2026

Novelvox PVT Ltd — Faridabad, Haryana

- Engineered** serverless AWS Lambda pipelines for Amazon Connect, automating call data ingestion into MySQL and DynamoDB, reducing manual reporting effort significantly.
- Built** a real-time multilingual chat translation feature for Webex Contact Center using AWS Lambda, expanding platform reach to non-English-speaking customer segments.
- Designed** and deployed Genesys ACD architecture, chatbot flows, and multi-channel campaign automation (Email, SMS, Voice) across Zoom, Genesys, and Webex platforms.
- Architected** a high-impact CDK Global & Zoom CTI integration, enabling real-time lead synchronization and contact management for automotive dealerships.
- Published** and maintained enterprise applications on ServiceNow, Freshdesk, and Webex marketplaces with end-to-end deployment, configuration, and customer support.
- Delivered** CTI integrations and workflow automations across 6+ CRM platforms: ServiceNow, Salesforce, Freshdesk, Zendesk, CDK Global, and COX Automotive.

Associate Software Developer | 10/2021 – 03/2024

Novelvox PVT Ltd — Faridabad, Haryana

- Developed** an MS Teams Calling Bot using MS Teams API, REST API, and Node.js, enabling CTI functionality within the Teams ecosystem.
- Configured** MS Dynamics Live Chat and Telephony with State Sync, and implemented BYOT (Bring Your Own Telephony) setup in Salesforce using PowerFX.
- Implemented** telephony integrations (Genesys, Avaya, Amazon Connect) with multiple CRM systems, streamlining contact center operations.
- Leveraged** ServiceNow APIs to build new CTI features, optimizing contact center workflows and agent efficiency.
