Summary

Finance professional with experience in digital lending, credit risk and product implementation within secured retail lending. Exposure to GenAI-based automation, SLOS integration, AI-driven workflow optimization and cross-functional collaboration across credit, operations and technology teams. Skilled in process automation, business analysis, UAT support and data-driven decision making with hands-on experience in FinnOne, SLOS, SFDC, FICO and Jocata.

Experience

- Tata Capital Limited, Mumbai** March 2025 - Present
Credit Manager
 - Evaluating and underwriting secured retail auto loan proposals in line with credit policy and risk framework, including borrower assessment through income documents, banking analysis, employment/business stability and bureau reports.
 - Calculating and validating FOIR, LTV, eligibility, and repayment capacity and structuring loan terms such as ticket size, tenure, ROI and policy deviations to ensure risk-aligned credit decisions.
 - Consistently managing a high-volume underwriting workload with a monthly productivity target of 250 cases and peak handling of 290 cases, while ensuring adherence to credit quality standards.
 - Monitoring portfolio performance and delinquency trends, performing loss aversion checks and supporting asset quality, contributing to improvement in credit quality of the portfolio by 3%.
 - Collaborating with cross-functional teams across credit, operations and technology for digital lending workflows, SLOS integration, GenAI-driven automation initiatives and process optimization while working on FinnOne, Jocata, FICO, SLOS and SFDC, contributing to a 2.9% reduction in TAT.
- CARE Ratings Limited, Mumbai** April 2024 - June 2024
Research Analyst
 - Conducted in-depth financial analysis for NBFCs and HFCs, focusing on profitability, asset quality and operational trends and presented key insights through executive-level reports and presentations.
 - Developed dashboards to enhance financial trend monitoring, ensuring data accuracy and actionable recommendations, while collaborating with cross functional teams to strengthen compliance and regulatory reporting frameworks.

Projects

- Gen AI Integration**
Contributing to a GenAI-powered credit automation platform integrating CPC and credit data for automated credit summaries and faster decision making. Involved in BRD discussions, workflow optimization and credit checkpoint identification.
- Single LOS Integration**
Contributing to pan-India SLOS implementation through rollout support, process alignment and digital workflow integration to improve operational efficiency and streamline loan processing.
- AI Bot Integration**
Executed an AI-enabled automation initiative enabling automated file movement from sales login

through Jocata into FinnOne workflows, improving TAT and operational efficiency.

- **Thesis Paper**

The role of artificial intelligence in optimizing supply chain and logistics efficiency.
