

MOHIT SINGH

Senior Software Developer | CRM & CTI Integration Specialist

ServiceNow • Salesforce • Microsoft Dynamics 365 • HubSpot • Cisco Finesse • CTI Integration

Gurugram, INDIA | +91 7982092042 | mohit310ggn@gmail.com | 4.8 Years Experience

PROFESSIONAL SUMMARY

Results-driven Senior Software Developer with **4.8+ years** of hands-on experience designing and delivering enterprise-grade **CRM and CTI integration solutions** using **Java, Spring Boot, Node.js, JavaScript, REST APIs**, and **SQL**. Deep expertise in **ServiceNow platform development** (REST APIs, ITSM workflows, Scripted Integrations), **Salesforce CTI**, **Microsoft Dynamics 365**, **HubSpot**, and **Cisco Finesse** integrations for contact center ecosystems. Proven ability to independently own end-to-end projects from requirement gathering and solution design through deployment and **P1/P2 production support**. Skilled in **API development, webhook-driven workflows, CRM-telephony integrations**, infrastructure tuning, mentoring junior developers, and collaborating with cross-functional teams and client stakeholders. Actively leverages AI tools such as **ChatGPT and Claude** to accelerate development workflows and drive operational efficiency.

KEY SKILLS

ServiceNow	CTI Integration	CRM Integration	REST APIs	Node.js
JavaScript	Java	Spring Boot	SQL	MySQL
Salesforce	MS Dynamics 365	HubSpot	Cisco Finesse	Zoho CRM
Webhook Integration	P1 Incident Mgmt	Root Cause Analysis	API Development	Production Support
Client Management	Technical Mentoring	Git	CI/CD	Agile/Scrum

KEY ACHIEVEMENTS

- Delivered **7+ enterprise CRM & CTI integrations** (**ServiceNow, Microsoft Dynamics 365, Salesforce, HubSpot, Zoho CRM**) — each reducing manual agent effort by **30–40%** and improving contact center efficiency.
- Architected and deployed **cloud-hosted CTI solution for J&K Bank** integrating **Salesforce CRM with Cisco Finesse on AWS S3 and CloudFront** — enabling real-time call control for live agents.
- Configured Apache Reverse Proxy and Tomcat Clustering** for Bank Albilad CTI–CRM integration — achieving high availability, load balancing, and fault tolerance across banking operations.
- Received **8 'Pat on the Back' awards** at NovelVox for exceptional performance and timely project delivery.
- Awarded **Performance of the Year** — recognised among top performers at NovelVox Pvt Ltd.
- Resolved critical **P1/P2 production incidents** across live banking and enterprise client environments with **root cause analysis** and permanent fixes.

WORK EXPERIENCE

Software Developer — CRM & CTI Integration Specialist

Oct 2021 – Present

NovelVox Pvt Ltd, Gurugram, Haryana

- Design, develop, and deliver enterprise-grade **CRM and CTI integration solutions** using **Java, Spring Boot, Node.js, JavaScript, REST APIs** — owning projects end-to-end from requirement gathering through production support.
- Build and maintain **ServiceNow REST API integrations** — bridging telephony events into **ServiceNow ITSM workflows**, cutting agent context-switching and automating ticket management.

- Develop **webhook-driven synchronization services** for **HubSpot, Salesforce, MS Dynamics 365** — automating call activity logging, CRM record updates, and real-time data sync.
- Resolve critical **P1/P2 incidents**, perform **root cause analysis**, and implement permanent fixes to improve system stability across live client environments.
- Collaborate with clients, infrastructure teams, and cross-functional stakeholders during **deployments, releases, and production support** cycles.
- Lead technical decision-making, mentor junior team members, and actively integrate **AI tools (ChatGPT, Claude)** to automate repetitive tasks and accelerate development workflows.

PROJECTS

Deliverect — ZCC–HubSpot CTI Integration via Chrome Extension

6 Months

Technologies: Node.js, JavaScript, HubSpot APIs, Azure, Chrome Extension APIs

- Developed a **Chrome Extension-based CTI integration** enabling **real-time communication** between contact center agents and **HubSpot CRM** platform.
- Built **webhook-driven synchronization services** for customer interactions, call activities, and **CRM record updates** using **Node.js and HubSpot APIs**.
- Improved data consistency and reduced manual agent effort through **automated interaction logging** and event-driven workflows.
- Delivered end-to-end integration coordinating with cross-functional teams and client stakeholders across the full **project lifecycle**.

Bank Albilad — CTI–CRM Integration with Microsoft Dynamics 365 & ServiceNow

15 Months

Technologies: Java, Spring Boot, Node.js, REST APIs, Apache Tomcat, Apache HTTP Server, Microsoft Dynamics 365, ServiceNow

- Developed enterprise **CTI integrations with Microsoft Dynamics 365 and ServiceNow** for large-scale **banking contact center** operations using **Java, Spring Boot** and **Node.js**.
- Built **ServiceNow REST API integrations** to synchronize telephony events with **ITSM workflows**, automating incident and case management.
- **Configured Apache Reverse Proxy and Tomcat Clustering** to ensure **high availability, load balancing, and fault tolerance**.
- Built **REST APIs** for **real-time call event processing** and **CRM synchronization** between telephony and CRM systems.
- Resolved critical **P1/P2 incidents** and performed **root cause analysis** to improve long-term system stability.

Misr Digital Innovation — CTI–CRM Integration with Microsoft Dynamics 365

14 Months

Technologies: Java, Spring Boot, Node.js, JavaScript, REST APIs, Microsoft Dynamics 365

- Built enterprise-grade **CTI integration** using **Java, Spring Boot** supporting **real-time agent state management** and customer interaction tracking with **Microsoft Dynamics 365**.
- Developed **event-driven workflows** using **Node.js** to synchronize telephony activities with CRM records in real time.
- Improved system reliability through extensive **debugging, API monitoring**, and performance optimization.
- Worked closely with business teams to deliver scalable solutions aligned with **operational requirements**.

BT Wallboard — Integration with Microsoft Teams & UCCE Database

4 Months

Technologies: Java, Node.js, JavaScript, SQL, Microsoft Teams APIs, Cisco UCCE

- Integrated **Cisco UCCE data sources** with a real-time wallboard reporting platform for **contact center analytics**.
- Developed **optimized SQL queries** and **Node.js / Java backend services** for live contact center data processing.
- Implemented **Microsoft Teams alerting** for operational threshold breaches and critical contact center events.
- Enhanced reporting visibility and enabled **proactive monitoring** for contact center management teams.

iLearna — Zoom Integration with Zoho CRM

6 Months

Technologies: JavaScript, Node.js, Zoho CRM APIs, Zoom APIs, REST APIs

- Designed and implemented a full **Zoom–Zoho CRM integration** using **JavaScript and Node.js** to streamline meeting management and customer engagement workflows.

- Developed **JavaScript-based automation** and **REST API integrations** for meeting creation, updates, and real-time synchronization between Zoom and Zoho CRM.
- Customized **Zoho CRM workflows** and business processes to align with client operational requirements.
- Independently delivered end-to-end integration from requirement gathering to **deployment and post-production support**.

J&K Bank — Serverless CTI–CRM Integration with Salesforce

6 Months

Technologies: Java, Node.js, JavaScript, AWS S3, CloudFront, Salesforce Open CTI, Cisco Finesse

- Architected and delivered a **cloud-hosted CTI solution** integrating **Salesforce CRM with Cisco Finesse** using **Java and Node.js** for seamless agent workflows.
- Developed **real-time call control** and customer interaction management capabilities within **Salesforce Lightning** using **Salesforce Open CTI**.
- Implemented scalable deployment architecture using **AWS S3 and CloudFront**, improving application availability and global performance.
- Designed **supervisor monitoring capabilities** including **silent monitoring and barge-in functionalities** for contact center management.
- Collaborated directly with client stakeholders to ensure **successful deployment and sustained production support**.

TECHNICAL SKILLS

ServiceNow	ServiceNow REST APIs, ITSM Workflow Integration, Scripted Integrations, ServiceNow–CTI Sync, Incident Automation, MID Server, Import Sets
Backend	Java, Spring Boot, Node.js, JavaScript (ES6+), Express.js, REST APIs, Webhook Architecture, Apache Tomcat, Apache HTTP Server
CRM Platforms	Microsoft Dynamics 365, Salesforce (Open CTI, Lightning, REST API), HubSpot APIs, Zoho CRM, ServiceNow ITSM
CTI Integration	Webhook-Driven CRM Sync, Real-Time Call Event Processing, Agent State Management, CRM–Telephony Event Sync, P1/P2 Production Support, Wrap-Up Code Mapping
Cloud & Infra	AWS S3, CloudFront, Apache Reverse Proxy, Tomcat Clustering, CI/CD, Git
Database	MySQL, SQL, Hibernate JPA, Query Optimization, Cisco UCCE Data Integration
Telephony / CTI	Cisco Finesse, Cisco UCCE, HubSpot CTI, Zoom, Microsoft Teams
Methodologies	Agile/Scrum, API Design, Root Cause Analysis, Client Management, Technical Mentoring, AI Dev (ChatGPT, Claude)

EDUCATION

B.Tech / B.E. in Computer Science

2021

Manav Rachna College of Engineering, Faridabad

ADDITIONAL INFORMATION

- Languages: English, Hindi
- Awards: 8x 'Pat on the Back' at NovelVox | Performance of the Year Award
